

## Why are you applying for Financial Aid?

Hi! I am X student in computer science I am a student full time so I haven't any time to work So my Annual income is zero, There is a big gap between the differences of the USA currency and the currency of Africa's countries and we need to take a background about Important topics which courses give a fundamental of it by using an amazing way to teach that is will wide my brain to think how I can Achieve my Dream Also the certificate will be important to me to add it in my LinkedIn to work as freelancer that is will give me an income to help me to make a good step forward The financial aid Made for us the reason of our financial problem in African continent so I hope to take the Financial aid to Earn the Certificate Which will be important For me to Achieve my Goal to be an X

## How will taking this course help you achieve your career goals?

I am student in computer science and I want to learn X So this course will be suitable for me to take a background about the This Topic which course give a fundamental of it by using an amazing way to teach that is will wide my brain to think

how i can Achieve my Dream Also the certificate will be important to me to add it in my LinkedIn to work as freelancer that is will give me an income to help me to make a good step forward And take experience from this work which will help me to be a X in and that

is my dream also The coursera certificates is Verified And the instructor of the courses are Professors from Big Universities in the Word That is will make me take the big experience .from all of them
